Because It’s More Than A Garden
We do not seek the glamorous, we search for the simple things. The things that are often taken for granted, the things that provide.

By cultivating each one, we respect the resource it represents and those we have the privilege to serve.
Sweet Garden™ is our range of pure cane based products. The use of the residual material from sugar cane harvesting was a great innovation that has significant benefits to the growers of sugar cane, to Australian gardeners and to the environment.

Organic Sugar Cane Mulch

Covers:
9 m² 18 m² when replenishing

Sweet Garden Sugar Cane Mulch is made from the leaves of sugar cane plants. It is dried, cut, screened and dust extracted for a clean and easy to use mulch. Packaged in a large compressed bale for easy handling and value for money. Ideal for vegetable gardens and general mulching.

- Minimises evaporation and saves water
- Adds organic matter to the soil surface
- Assists in controlling soil erosion
- Protects plants from temperature extremes
- Encourages earthworm activity
- Helps minimise weeds

Available exclusively at Bunnings Warehouse
Pea Straw Mulch is a natural garden mulch produced from pea plants. It is golden in colour, similar to sugar cane in appearance, but has the added benefits of nitrogen that this legume crop provides. This higher nitrogen level in the plant stems and leaves improves plant growth. Recommended for fruit and vegetable gardens.

Available exclusively at Bunnings Warehouse
Organic Lucerne Mulch

Covers:
up to 10m²

Lucerne Mulch, greenish in colour, is a finer product than other mulches, produced from dried lucerne plants. Lucerne is a legume, a type of plant that produces nitrogen as it grows. Ideal for delicate plants that like nitrogen such as roses, camellias and azaleas, fruit trees & flowering shrubs.

- Reduces evaporation and conserves moisture
- Adds organic matter to the soil surface
- Provides nutrients to plants and soil
- Encourages earthworm activity
- Insulates and protects plant roots
- Helps minimise weed establishment

Available exclusively at Bunnings Warehouse

Organic Soilfix

- Improves soil structure and drainage of clay soils
- Increases water holding capacity of sandy soils
- Provides organic plant nutrition
- Contains soil wetting agents
- Enviro friendly

Proganix Soil Fix has been scientifically formulated to provide an ideal combination of physical and nutritional characteristics to fix most common soil problems. It is manufactured from fully composted organic materials with added organic nutrients, gypsum and wetting agents to provide a single solution for problem garden soils.
